LICKING CO. ROCK & MINERAL SOCIETY  
PLANS AND OBJECTIVES

- The LCR&MS has grown considerably since inception in 1968. Members and the public at large have benefited from this growth and additional space and facilities are now required.
- As an affiliated member of the Cultural Alliance of Licking County a jointly used CULTURAL CENTER is planned which will incorporate facilities, equipment and resources for -
  - A County Museum of Natural History
  - Display and Show Areas
  - Meeting Rooms
  - Training Classrooms
  - Workshops
  - Office Space
  - Storage Space
  - and
  - An Auditorium to accommodate speakers of world renown, movies, and closed circuit video programs of community interest and educational value
- Realization of the planned Cultural Center will -
  - Enhance communication among local organizations involved with the arts, sciences and humanities in Licking County.
  - Develop public awareness and appreciation of the arts and sciences.
  - Develop community resources for the promotion of the arts and sciences.
  - Allow for the establishment and operation of a center for the arts and sciences.
  - Provide for the establishment of a united fund-raising program on behalf of the Licking County Rock & Mineral Society and affiliated arts and science organizations.
  - Provide the facilities necessary for all cultural groups in the area to truly be of service to the entire community of Licking County and Central Ohio.
  - Serve to enhance the quality of life in Licking County making it attractive to the public and business at large.

Persons interested in joining the Society are invited to attend a meeting as guests.

-----

LICKING COUNTY
ROCK AND MINERAL SOCIETY, INC.
NEWARK, OHIO 43055

Affiliated Member
of
Cultural Alliance of Licking County
and
Midwest Federation of Mineralogical
and Geological Societies

The Licking Co. Rock and Mineral Society, Inc., organized in April, 1968, promotes the interest and education of residents of all ages from Central Ohio in -

Geology

Mineralogy

Paleontology

Archaeology

Lapidary Arts

Metalsmithing

Jewelry Design

Membership in the Society provides an opportunity for association with others of like interest and for involvement in programs, and education to the extent desired.

The programs feature slides, movies and displays. There are interesting speakers including professionals in various fields.

Lapidary workshops are conducted by qualified instructors using club-owned equipment. There is no charge.

There are field trips to collecting sites and to natural history museums.

Silent auctions and rock swaps give members an opportunity to obtain specimens and cutting materials.

The club library consists of several dozen books on various subjects listed previously.

A news bulletin, "Flint Flashes", containing educational articles of a wide variety, is published monthly.

The LCR&MS serves as a public school resource for Earth Science studies and conducts classes as requested to stimulate an interest in rock collecting, identification and in the related field of geology.

A Scholarship at a local University is given to a worthy earth science student each year.

The annual Gem, Mineral and Fossil Show acquainting the public to the earth sciences and the rockhound hobby is of interest to young and old alike.

Current membership is comprised of members throughout Licking County and Central Ohio.
